

GUILD EDUCATION

Guild's mission is to unlock opportunity for America's workforce through education, with a double-bottom line business model that does well by doing good. Helping leading F1000 employers positively impact their bottom line, Guild is transforming traditional tuition reimbursement programs into strategic investments by increasing employee recruitment, retention, upskilling and brand equity. And by providing access to a network of nonprofit universities and learning providers, the Guild platform is helping companies meet the growing needs of their business and their people, both now and in the future.
